ARO series

El agua es el elemento central de esta serie inspirada en la ceremonia del té japonés. De ahí, las profundas formas cóncavas de los diferentes elementos de la colección ARO, que recuerdan a los boles de porcelana utilizados en este rito. Bajo esta premisa, estudi{H}ac redefine una tradición ancestral con un diseño moderno al que da forma un material tan innovador como el compacto mineral KRION® a base de líneas sutiles, naturales y limpias, concretadas en figuras semicirculares de tacto agradable.

Una franja plana en forma de aro enmarca los diferentes elementos, recordando las manos de quien ofrece el té al invitado, de igual forma que el baño ofrece el agua para uso íntimo y personal.

Water is the central element of this series inspired by the Japanese tea ceremony. The deep concave shapes of the different elements of the ARO collection are reminiscent of the porcelain bowls used in this ritual. In this way, estudi{H}ac redefines an ancestral tradition with a modern design using the innovative compact mineral material, KRION® Solid, based on pure, natural and subtle lines, creating semi-circular figures that are pleasant to the touch. A flat strip in the shape of a ring marks the different elements, evoking the hands of the host offering tea to their guest, in the same way as the bath offers water for intimate personal use.

L'eau est l'élément central de cette série inspirée de la cérémonie du thé japonais. D'où les profondes formes concaves des différents éléments de la collection ARO, qui rappellent les bols en porcelaine utilisés à l'occasion de ce rite. C'est dans cette optique que l'Étude estudio{H}ac redéfinit une tradition ancestrale avec un style moderne façonné par un matériau aussi innovant que le minéral compact KRION® Solid à partir de lignes subtiles, naturelles et épurées, concrétisées en figures semi-circulaires au toucher agréable.

Une bande plate en forme d'anneau entoure les différents éléments, évoquant les mains de celui qui offre le thé à l'invité, tout comme la salle de bain offre l'eau pour un usage intime et personnel.

Tras presentar en 2015 ARO Series, KRION Porcelanosa Baths, siempre en busca de la excelencia, y con la colaboración del estudio de diseño estudi{H}ac, ha desarrollado esta nueva serie que mantiene el icónico anillo de la parte superior. A pesar de estos puntos en común su depurada sutileza y sus delicadas formas dotan a estos nuevos elementos de una nueva personalidad.

Following the 2015 launch of the ARO series, as part of its ongoing quest for excellence, KRION Porcelanosa Baths has developed this new series in collaboration with estudi{H}ac design studio, with the same iconic ring on the top. Despite these common denominators, this series' stylish subtlety and delicate forms lend it a whole new personality.

Après avoir présenté en 2015 ARO Series, KRION Porcelanosa Baths, toujours en quête de l'excellence, a développé, avec la collaboration du studio de design estudi{H}ac, cette nouvelle série qui maintient l'anneau iconique de la partie supérieur. Malgré ces points en commun, sa subtilité épurée et ses formes délicates dotent ces nouveaux éléments d'une nouvelle personnalité.

NEST series

La serie NEST presenta líneas suavemente redondeadas, inspiradas en formas asimétricas con una presencia exquisita, donde el diseño, al igual que el agua, fluye de forma suave y natural.

Este cuidado diseño con ausencia de esquinas permite que su mantenimiento y limpieza sea fácil y rápido, prolongando su durabilidad. Cuenta con un copete perimetral prácticamente imperceptible que favorece la higiene y evita las salpicaduras.

La serie se compone de varios elementos y materiales que se mezclan entre sí para ofrecer una amplia gama de opciones: encimeras, muebles, chasis metálicos y accesorios, con acabados de KRION® SOLID en las encimeras y lacados en blanco o negro en el resto de elementos. Disponible en medidas de 61x50, 80x50, 120x50 y 152x50 cm.

La encimera de KRION® SOLID no requiere chasis para el montaje, con lo que su instalación es muy sencilla, y el seno cuenta con un rebosadero de gran capacidad integrado para evacuar rápidamente el agua.

The Nest series stands out for its exquisite slightly rounded design, inspired by asymmetrical shapes, with a gentle natural flow like water. Thanks to its carefully-conceived design with no corners, it is swift and easy to clean and care for and more long-lasting. It features a subtle lip around the perimeter for hygiene purposes and also to avoid splashes. The series includes various different components and materials that can be mixed and matched in a wide variety of ways, such as countertops, units, metal frameworks and accessories. The countertops come in a KRION® SOLID finish and all the other components in a black or white lacquer finish. Nest comes in a choice of a 61x50, 80x50, 120x50 or 152x50cm format. The KRION® SOLID countertop does not need a framework to mount it and so it is very easy to fit. The basin has a big integrated overflow for water to drain away quickly.

La série Nest présente des lignes raffinées légèrement arrondies, inspirées des formes asymétriques, où le design, à l'image de l'eau, évolue d'une manière douce et naturelle. Ce design soigné, sans angles, permet un entretien et un nettoyage aisés et rapides, tout en prolongeant sa durabilité. Il dispose d'un rebord sur tout le périmètre pratiquement imperceptible, qui favorise l'hygiène et évite les éclaboussures. La série se compose de divers éléments et matériaux que l'on peut mélanger pour offrir une ample gamme d'options : plans vasques, meubles, bâtis métalliques et accessoires, avec des finitions en KRION® SOLID pour les plans vasques et des laqués blanc ou noir pour le reste des éléments. Disponible aux formats 61x50, 80x50, 120x50 et 152x50 cm. Le plan vasque en KRION® SOLID ne requiert pas de bâti pour le montage, ce pourquoi son installation est très simple. La cuvette dispose d'un trop-plein intégré de grande capacité pour évacuer l'eau rapidement.

MODUL series

Serie de baño MODUL, basada en el plano y de línea minimalista. Casi aséptica, pretende ser aparte de una seductora propuesta estética, una controversia para los sentidos. Una fusión económica, estética y práctica. La pieza principal realizada en KRION® Solid, dispone de una estructura metálica, la cuál confiere la rigidez necesaria al conjunto. Esta solución técnica y formal permite conseguir una sensación aérea, muy atractiva por su ligereza visual.

MODUL bathroom series, based on straight, minimalist lines. Pure in spirit, it is intended to provide a sensation that is simultaneously seductive and controversial. A combination that is economical, aesthetically pleasing and practical. The main component, made of KRION® Solid, and a metallic frame, which provides the ensemble with the necessary stiffness. This technical and formal solution makes it possible to achieve an airy sensation, which is highly attractive thanks to its light appearance.

Une fusion économique, esthétique et pratique. La pièce principale est en KRION® Solid, et la structure métallique dont elle est dotée confère à l'ensemble la rigidité nécessaire. ONE

La serie ONE, formada por diversas encimeras y lavabos, destaca por sus líneas rectas y por el predominio de las formas cuadradas. Su diseño minimalista se ve aumentado con la posibilidad de incorporar una estructura metálica negra a las encimeras o un mueble en tono vulcano grey y blanco que destaca por su amplio cajón en cierre soft close y por su amplio uñero metálico. Elaborada con la tecnología Krion Shell®, la serie dispone de un copete perimetral prácticamente imperceptible que favorece la higiene y evita las salpicaduras, facilitando su limpieza y mantenimiento. Los modelos ONE CUSTOM de la serie pueden cortarse a fin de ajustarse a todo tipo de espacio, incluso en zonas difíciles donde hay algún pilar o paredes con diferente ángulo, siendo así una serie adaptable y muy versátil.

The ONE series is made up of a selection of countertops and washbasins with a straight-lined design and predominance of square shapes. Their minimalist appearance can be further enhanced by adding a black metal frame to the countertop or a bathroom unit in vulcan grey and white with a large soft-close drawer and big metal draw pull. Made using Krion Shell® technology, the series has an almost imperceptible upstand around it to avoid splashes and to improve on hygiene, ensuring easier cleaning and care. The models in the versatile, easily adaptable ONE CUSTOM series can be cut to size to suit varying spaces, including ones with a column or places with walls at unusual angles.

La série ONE, formée par divers plans vasque et lavabos, se distingue par ses lignes droites et par la prédominance des formes carrées. Son design minimaliste se voit accentué par la possibilité d'incorporer une structure métallique noire aux plans vasque ou un meuble dans les tons vulcano grey et blanc qui se détache par son ample tiroir avec fermeture soft close et grande rainure d'ouverture métallique. Élaborée avec la technologie Krion Shell®, la série dispose d'un rebord périphérique pratiquement imperceptible qui favorise l'hygiène et évite les éclaboussures, facilitant ainsi son nettoyage et son entretien. Les modèles ONE CUSTOM de la série peuvent se couper afin de les ajuster à toute sorte d'espaces, y compris dans des zones difficiles présentant un pilier ou des murs avec un angle différent, ce qui en fait une série adaptable et très versatile.
